Dear Madam/Sir,

we are looking for a partner(s) from Slovakia (or other country member of EU) in accordance to an "EU Project Strengthening Serbia - EU Civil Society Dialogue ". [Here is a link with more details](#) in regards to the Project.

We are NGO Computer Camp for children (www.compcamp.net/english) from Novi Sad, Serbia.

My name is Radoslava Konjevic and I am founder of the first Computer camp for children in Serbia.

About our Camp:

[The Summer Computer Camp](#) (hereinafter, Comp Camp, ([Komp-Kamp 2008](#) and [Comp-Camp-International 2009](#)..)) for children from 8 to 15 years is a summer program for Public Primary school kids with the goal of providing an organized educational and recreational use of a summer holiday. It is a valuable way for kids to build upon technology skills taught in schools and the technology skills needed for the 21 century .

CompCamp is the only one camp in Europe working with children in the filed of IT and the Game design programs.

Check it at the bottom of the next page: [Worlds Kids Camp Directory](#). (Canada, Serbia, USA)

CompCamp is situated in Erdevik, region Srem-Vojvodina, where the population is almost half Slovakian nationality.

Proposal:

With a partner from EU our organization is ready to make program in a mutual benefits. It is important that field of work should be any work with children.

We have our Program for a mentioned EU Project, and it could be synchronized with program of some organization from Your country.

We are ready to organize, in a cooperation with similar organization from Slovakia ,

during the next few summers, that children from Slovakia come to Serbia and spend summer in Computer Camp. In the same way, I would like from Slovakian partner to organize to receive children from Serbia to Slovakia, in the camp similar to our CompCamp, no need to be computer camp, but any camp for children, to spend summer vacation in your country, working accordingly to any educational program for kids.

In that aim you are invited to visit our web sites and see our great possibilities and after that, if there is interested organization from Slovakia, maybe we could establish the same camp in Slovakia, too.

I live, actually, in Novi Sad, but during the summer I am more then two months in Erdevik, village in region named Srem, staying in CompCamp with children.

At the moment we can together work on an application, offered grant from European community (50.000 -150.000 Euro) project named Strengthening Serbia-EU Civil Society Dialogue.

I am planing to represent you/your organization as CompCamp's partner from the country in European Union, as it is important for this project.

There are many possibilities , hope every side could find good opportunities.

Please, send us answer ASAP, as the **term is very short- we should finish our common program until 1st of March.**

You can get more informations about our activities at our two web sites, [CompCamp 2009](#) and [KompKamp 2008](#).

Hope you will find a positive side of my proposal for cooperation for the best future for children of our countries.

Best regards,

Radoslava Konjević
